PROJECTS:

Title: IBM_Hackthon_2k23   **- Flask, IBM Cognos Analytics,Html,css**

Description: Participated in IBM Hackathon 2K23, leveraging IBM Cognos Analytics for a project targeting malnutrition. Utilized data visualizations on a website to o er valuable insights from the dataset, showcasing interactive visuals to highlight trends and aid in addressing malnutrition challenges effciently.

Title: My_CSP_Project   **- Angular.js,Oracle,Node.js,express.js**

Description: Developed the "AP Welfare Schemes Info" Community Service project, a chatbot facilitating inquiries about Andhra Pradesh's welfare schemes. Features include chatbot functionality for scheme details, FAQs display, and enhanced accessibility, empowering citizens with comprehensive and accessible information for informed decision-making.

Title: Hostel App   **- MongoDb , Express.js, React.js, Node.js**

Description: Created an extensive online platform to assist 10th-grade students in navigating course selection, competitive exam preparation, and job placement. The platform offers personalized course recommendations, exam preparation resources for tests like EAMCET, JEE Mains, IIT, and NEET, career guidance, and an interactive interface for easy navigation and engagement. Additionally, progress tracking tools provide students with personalized feedback and recommendations based on their performance.
